The Alaska Railroad
Anchorage, Alaska

ATTENTION: Mr. J. P. Johnson

Dear Sir:

The increase in freight traffic at this installation imposes a requirement for additional motive power. Locomotive #318, recently acquired from the Alaska Railroad to replace #4004 damaged in a boiler failure, has proved very satisfactory and it is requested that another locomotive of the same type be made available for Army use.

If a locomotive is provided, it would be desirable to include it in a "Memorandum of Agreement" contract.

Yours truly,

E. M. Hamilton
